01. Safety Instructions

- Each symbol refers to the followings:

Warning

Risk of electric hazard when violating the instructions

Caution

Risk of injury or material damage when violating the instructions

- Each pictorial indication means the followings:

means prohibition

means obligation

Warning

Disassembly, modification or repair is not allowed.

► Risk of electric shock or fire.

Don't plug or touch the power cord with wet hands.

► Risk of electric shock.

Don't spray water on the main body of product or power plug.

► Risk of electric shock or fire

Don't use the damaged power cord or outlet.

► Risk of electric shock or fire

Warning

Don't fail to do grounding.

- Always use the outlet that encloses the earth electrode (Earth terminal mounting outlet-check if there is earth or not).
- In case there is no earth electrode, do grounding separately.
- When it is not grounded, it causes the failure and electric shock.

Insert the power plug correctly in 220~240V exclusive outlet.

► Risk of heat or fire.

Don't locate the cigarette or flammable materials near the product ; Don't throw the cigarette into the product.

Don't connect the product to the water pipe of industrial use.

► Risk of causing dermatitis of user.

Don't connect power to the product before its complete installation on the toilet.

When the power cord or plug is damaged, always inform the service center, and replace if required.

Don't block the hot air hole nor put any object or hand on the hole.

► Risk of burn or electric shock. (DIB-1300, 1500 only)

When removing the product from toilet, always release the power plug first.

► Risk of electric shock.

01. Safety Instructions

⚠ Caution

Don't stand on the product; don't put heavy object on it.

► Risk of injury or damage to the product.

Don't force to close the cover of toilet.

► Risk of failure.

Don't force to lean against the cover of toilet.

► Risk of failure.

When cleaning, don't use toilet-use detergent, benzene, thinner, etc.

► Risk of damage to the product or crack.

Don't bend the connecting hose; don't force to pull it out.

► It may cause stoppage of water supply or leakage.

Be cautious of low temperature burn.

► When the skin has been in contact with a low temperature hot surface for a long time, it may cause low temperature burns. The seat temperature should be set on Low or Off when the unit is used by children, elderly persons or persons who can not control temperature themselves.

⚠ Caution

When the product is not used an extended period of time, remove the power plug and drain the water out of the product tank.

► It may cause the water rotten and result the skin disease.

Don't use an out of order/faulty product.

► When it is out of order, remove the plug from the outlet and inform the service center.

► Otherwise, it may cause fire or electric hazard.

When installing, push it in until it sounds 'Click'.

► It may cause water leakage or mal-operation.

Don't place the removed product upside down.

► Risk of the product failure.

02. Product Characteristics

dīb bidet has the following characteristics:

Continuous Warm Water Supply

Enjoy continuous warm water throughout the wash cycle.

Turbo Wash

Soft but powerful water wash for added cleansing benefit.

Bubble Wash

Aerated water wash adds cleaning comfort.

Massage

Nozzle moves back and forth for massage effect.

Pulse

Pulsating wash repeatedly cycles from weak to strong.

Deodorization Function

Semi-fundamental deodorizing filter provides odor-free during use.

Energy Saving Function

It finds out the time frame when used frequently, realizing the maximum energy saving effect.

Child Settings

Specialized nozzle position and water pressure for children.

Remote Control Unit

Convenient wide LCD remote control provides easy user interface.

User Preset

User can preset and store the memory for control setting

04. Installation

Order of Installation

- 1 Remove the seat from the existing toilet body.
▶ Release the nuts, and then remove the seat and cover from it.
▶ Keep the removed seat, cover and nuts well in a proper place.

- 2 Close the water feed valve by turning it clockwise, and then drain the toilet water tank out.

- 3 Remove the water feed pipe and then install T-valve.
▶ Keep the removed water feed pipe well in a proper place. It may be useful when moving house to other place later.

- 4 Connect the toilet-use hose.

04.Installation

- 5 Fix the bracket onto the toilet first.

► Adjust the seat and the front part of toilet back and forth so that they can corresponds with before fastening the nuts.

- 6 Push the main body toward the bracket completely.

► Push it in until it sounds 'click'.
► When the product is not installed well, it may cause leakage.

- 7 After install the filter onto the T-valve, connect the bidet-use hose to the bidet body.

- 8 Insert the deodorizing cartridge into the bidet body.

Remote control installation & batteries insertion

- 1 Remove the adhesive protection to attach the remote control bracket.

- 2 Clean the place thoroughly to attach the bracket.

- 3 Remove the back cover and place supplied batteries with correct direction. Close the back cover.

※ **Caution**
Failure to install the batteries properly could cause damage or failure of the remote control unit.

- 4 Place the remote control in the bracket with correct direction. When placing it, take care to hang it on the bracket completely. Failure of placing could cause the remote control falling down.

04. Installation

- 5** When the batteries have reached the end of service life, the battery lamp will blink. Replace the batteries with new ones, AA size X 2pcs.

※ **Caution**

Do not use old and new batteries together.
This could cause damage or failure of the remote control.

- 6** If the unit does not work after replacing the batteries, unplug and wait for 3 seconds. Plug in again, and the unit will be ready for use.

※ After replacing the batteries, ID of the unit will be initialized as "00" (factory initialization ID), and its ID will be equalized ID of the remote control that reaches the unit first. This ID assigning function will be needed to prevent signal interruption if more than 2 units are used at one place. In case of using one unit only, user can use the unit accordingly without setting.

※ If you want to change the ID, please refer to the page 22. for "Remote Control ID Setting"

05. Trial Operation

Order of Trial Operation

- 1** Open the water feed valve by turning it anti-clockwise.

- 2** Be sure of no leakage around the hose connection.

- 3** Be sure that logo light on the top turns on and nozzle comes and retracts when powered on.

▶ Don't plug the power cord with wet hands.
Risk of electric hazard.

- 4** When the unit is powered on, water tank will be filled immediately. Check if water comes out from drain hole for 1~2 seconds.

06. Disassembly of Product

Order of Disassembly

- 1 Remove the power plug from the outlet.

- 2 Close the water feed valve by turning it clockwise, completely drain out the toilet water tank, release the nuts at bidet body of the bidet hose, and then remove them from main body.

- 3 Press the release button on the side of bidet, completely drain the water out of the of the main body. While keep on pressing the button, pull the main body forward, and then remove it from the toilet.

- 4 Release the nuts, and then remove the brackets from the toilet.

- 5 Remove bidet hose, toilet-use hose and T-valve.

- 6 Connect the water feed pipe that was removed when the bidet was installed.

- 7 Open the water feed valve by turning it anti-clockwise. Be sure of no leakage around the water feed connection.

- 8 Attach to the toilet the seat and cover that were removed when the bidet was installed.

07. How to Use the Product

Basic Operation Method

9 CHILD Function

- ▶ When used by a child, press the CHILD button first (CHILD function lamp behind the operation panel will light on), use the WASH and BIDET function, and then nozzle will move forward and the water pressure will be weakened.
- ▶ Nozzle position and water pressure can be adjusted within 5 steps as desired.
- ▶ When selecting CHILD function, control range of seat temperature will be dropped to the room temperature, 34°C/36°C/38°C
- ▶ Turbo Wash function will not operate during the operation of CHILD function.

11 WATER TEMP CONTROL

- ▶ When pressing the WATER TEMP. CONTROL button, the temperature of water can be controlled within the range of room temperature, 34°C/36°C/38°C

Water
Temp

10 Seat Temperature Control

- ▶ When pressing the SEAT TEMP. CONTROL button, the temperature of seat can be controlled within the range of room temperature, 34°C/38°C/42°C
- ▶ If the seat temperature reaches 34°C or more, the seat temperature indicator turns in RED. If not (under 33°C), it remains in BLUE.

12 ENERGY SAVING Function

- ▶ Automatic Energy Saving Function
 - # When pressing the button once, it enters into automatic energy saving mode
 - # Seat temperature will be kept at 32°C.
 - # When sitting on the seat to use bidet, it turns to the pre-designated temperature; When getting out of the seat, it returns to the automatic energy saving mode.
 - ▶ Learn Energy Saving Function
 - # When pressing the button twice, it enters into the learn energy saving mode.
 - # Learn energy saving enables MICOM to detect the time frame used by the users. It releases the energy saving function at the higher-frequency time frame to set the temperature of seat at the pre-designated level, while setting it at 32°C when the using frequency is lower, enabling the excellent energy saving effect.
 - # When using it at the lower frequency time frame, the preset temperature will increase during the time the user sits on the seat.
 - ▶ When pressing the button three times, the energy saving mode will be released.
- * This product adopts the rapid water-heating method, and therefore doesn't consume the unnecessary power to operate the heater for the purpose of keep the water temperature. It means its power consumption is far less than the electronic bidet seats of other suppliers.

13 Deodorizing function

- ▶ When sitting on the seat, the deodorizing function starts automatically.
- ▶ Speed of deodorizing fan can be controlled. (refer to the User setting facilities, P.22)
- ▶ After the usage of bidet, the deodorizing function will operate for one (1) minute.

14 Nozzle Cleaning

- ▶ While not sitting on the seat, and pressing the WASH button three seconds, the nozzle will move forward at its maximum distance so that the user can clean it easily (It will return after 2 minutes)
- ▶ When pressing STOP button, the nozzle will return and operate self-cleaning operation.

15 User Preset

- ▶ Initial nozzle position, water pressure, dry/water/seat temperature can be preset and stored for 4 users.

Presetting

- 1) Adjust nozzle position, water pressure, dry/water/seat temperature for your comfort.

- 2) Press "User preset" for 3 seconds, and numbers 1,2,3,4 will blink. (occupied number(s) will not blink)

- Ex 1) 1 2 3 4 All numbers are blinking
Ex 2) 1 2 3 4 Number 1 is occupied

- 3) Each Wash /Bidet/Turbo/Dry replaces 1/2/3/4 in User preset mode. Press the number for storing the memory (previous memory will be deleted if new memory stored)

- 4) Press "User Preset" again to store the memory and numbers and icon of user preset will be disappeared.

Using User preset

- 1) To use User Preset Function, press "User preset" and one of numbers consecutively. All settings will be set as it is stored before.

Press the number to call up the memory

- 2) After calling up the preset, use function(s) (Wash, Bidet, Turbo, Dry).
- 3) To release the user preset function, press "User Preset" again.

09. Maintenance & Cleaning

Cleaning of Water pipe filter

- 1 Close the water feed valve by turning it clockwise and then completely drain the water from the water tank
- 2 Remove the screen filter by turning it anti-clockwise.
- 3 After cleaning the water pipe filter, reassemble it by turning it clockwise.
- 4 Open the water feed valve by turning it anti-clockwise.

Cleaning of Nozzle

- 1 Press the WASH button for 3 seconds, and then the nozzle will move forward and stop (for 2 minutes)
- 2 Clean the nozzle with a unused toothbrush, etc., and press the STOP button, then it will return to the original place for self cleaning.

Wash

Cleaning of Bidet Body

- 1 Exterior surface of bidet is made of plastic material, which may be damaged by scrubber, chemicals, etc.
- 2 Wipe the surface with a soft cloth.
- 3 Clean the body after removing the power plug from the outlet. Be sure no water splash to the power plug or outlet.
- 4 Don't touch the power outlet with wet hand. Risk of electric shock.

Drainage of Hot Water Tank

How to Drain the Water after Removing the Seat

- 1 Remove the power plug from the outlet.
- 2 Close the water feed valve by turning it clockwise.
- 3 Press the release button on the side of main body.

Do not throw away

We are committed to protect the environment.

Please help us by disposing of this product in a responsible way when it reaches the end of its service life, to prevent certain substances contained in electric and electronic products from harming public health or the environment. The symbol means that the products may not be thrown away with other household waste: at the end of its service life, it may be taken at no charge to you to the waste-collection centers provided for the purpose by the authorities in your country.

It may also be taken to the distributor from whom you purchase a new product that is equivalent to or that performs the same functions as this product. This latter option may not be available in some countries.

10. Before requesting repair

※ Please check the following points before requesting the repair of the product.

Signs to occur	Matters to be checked
Completely out of operation	- Check if the power plug is not connected. - Check the power failure.
Water does not spray out	- Check if the water supply is suspended. - Check if water feed valve is locked - Check if nozzle is blocked by foreign material - Check if connection hose is bent
Water pressure is low	- Check if water pipe filter is blocked by foreign material. - Check if the water pressure is set at too low level
Water is not warm enough	Check if its temperature is set at 'Off' or 'Low'.
Seat is not warm enough	Check if its temperature is set at 'Off' or 'Low'
Turbo Wash is not operated	Check if it is set at CHILD mode.

Self-Diagnosis Table

※ When any abnormal phenomenon occurs, please refer to the following table, and inform the exact status at the time of requesting A/S service.

No	Self-Diagnosis Phenomenon	Way of Indication
1	Pump motor disconnected or not inserted	WASH, BIDET, TURBO WASH are our of operation
2	Pump motor short-circuited	
3	Deodorizing motor: Check the cycle of rotation at low speed	Buzzer sounds. Abnormal condition is differently indicated by symptoms
4	Stoppage of motor due to the over-current of deodorization motor	
5	Heat stops in case of low speed rotation of drying motor	
6	Heater and drying motor simultaneously stop in case of the over-current of drying motor.
